The Women Who Flew for Hitler Clare Mulley, 2017-06-29 A riveting double biography of Nazi Germany s most highly decorated women test pilots Hitler s personal Valkyries Hanna Reitsch and Melitta von Stauffenberg were talented courageous and strikingly attractive women who fought convention to make their names in the male dominated field of flight in 1930s Germany With the war both became pioneering test pilots and both were awarded the Iron Cross for service to the Third Reich But they could not have been more different and neither woman had a good word to say for the other Hanna was middle class vivacious and distinctly Aryan while the darker more self effacing Melitta came from an aristocratic Prussian family Both were driven by deeply held convictions about honour and patriotism but ultimately while Hanna tried to save Hitler s life begging him to let her fly him to safety in April 1945 Melitta covertly supported the most famous attempt to assassinate the Führer Their interwoven lives provide a vivid insight into Nazi Germany and its attitudes to women class and race Acclaimed biographer Clare Mulley gets under the skin of these two distinctive and unconventional women giving a full and as yet largely unknown account of their contrasting yet strangely parallel lives against a changing backdrop of the 1936 Olympics the Eastern Front the Berlin Air Club and Hitler s bunker Told with great narrative flair The Women Who Flew for Hitler is an extraordinary true story with all the excitement and colour of the best fiction

**Futurity** Amir Eshel, 2013-01-14 When looking at how trauma is represented in literature and the arts we tend to focus on the weight of the past In this book Amir Eshel suggests that this retrospective gaze has trapped us in a search for reason in the madness of the twentieth century's catastrophes at the expense of literature's prospective vision Considering several key literary works Eshel argues in *Futurity* that by grappling with watershed events of modernity these works display a future centric engagement with the past that opens up the present to new political cultural and ethical possibilities what he calls futurity Bringing together postwar German Israeli and Anglo American literature Eshel traces a shared trajectory of futurity in world literature He begins by examining German works of fiction and the debates they spurred over the future character of Germany's public sphere Turning to literary works by Jewish Israeli writers as they revisit Israel's political birth he shows how these stories inspired a powerful reconsideration of Israel's identity Eshel then discusses post 1989 literature from Ian McEwan's *Black Dogs* to J M Coetzee's *Diary of a Bad Year* revealing how these books turn to events like World War II and the Iraq War not simply to make sense of the past but to contemplate the political and intellectual horizon that emerged after 1989 Bringing to light how reflections on the past create tools for the future *Futurity* reminds us of the numerous possibilities literature holds for grappling with the challenges of both today and tomorrow

*Hitler's Death* Luke Daly-Groves, 2019-03-21 Did Hitler shoot himself in the Führerbunker or did he slip past the Soviets and escape to South America Countless documentaries newspaper articles and internet pages written by conspiracy theorists have led the ongoing debate surrounding Hitler's last days Historians have not yet managed to make a serious response Until now This book is the first attempt by an academic to return to the evidence of Hitler's suicide in order to scrutinise the most recent arguments of conspiracy theorists using scientific methods Through analysis of recently declassified MI5 files previously unpublished sketches of Hitler's bunker personal accounts of intelligence officers along with stories of shoot outs plunder and secret agents this scrupulously researched book takes on the doubters to tell the full story of how Hitler died
